Wishing you and your family a very Merry Christmas.

And to you. I'm terribly sorry about all this election stuff.

Will be happy when we can get past this and start working on planning for our future growth. I will be board chair next year and we have some important work to get done.

Exactly. Thank you

Tue, Jan 12, 7:06 AM

So happy that you will continue as Senate President. Congratulations! We have a lot of work to do!

Thanks Jack. Agree and trying to navigate all this crazy stuff is making it more challenging. Did we really volunteer for all this ? :)

Probably insane to want to do this but having logical leadership has never been more critical.

Agreed

Tue, Jan 26, 8:02 AM

Morning Jack. I'm on the morning report zoom with Luige and leadership. I can call about 9 am when done

I have a phone meeting from 8:30-9:30 and a web meeting that starts at 10.

Ok. We'll figure it out. How you holding up ? BTW if I haven't told you before, I really appreciate you

Tue, Jan 26, 11:21 AM

Let me know when you are free for call

Hi. I'm open for a while now if that works

Is it ok with you if Warren Petersen is in on call ?

Sure

Thank you. It's because of those arguments that we are hiring two separate audit companies

Fri, Jan 29, 9:58 AM

Giving you heads up on and letter to Tully coming your way from Kory regarding the audit. We have an issue with Pro v & V. The letter explains it all

Thanks. We are hiring both certified qualified auditors hopefully to be prepared for these issues. And yes both are currently certified by the USEAC. Appreciate you!!

Maricopa County board chairman @jacksellers sent senators a photo of pallets of ballots loaded on a truck and a letter asking where the county is supposed to drop them off. Despite subpoenas, the Senate isn't sure what to do with 2.1 million ballots it demanded.

Wondering if you really did send this out today? I am greeting phone calls from every media outlet wanting comment and I thought we had resolved this issue. Please tell me you didn't do this ....

In a meeting. I will call you in a few.

Sat, Mar 6, 8:09 PM

First feedback, I'm told we never shred ballots. They are going to review security footage around MCTEC.

Thanks. Just thought I'd give you heads up to try and get ahead of it. It's all over social media

The ballots are currently still in the vault at MCTEC under camera security. The Treasurer is installing cameras in his vault in preparation for the move. Of course when they are moved it will be with full security surveillance.

Can you get someone to push back on this crazy stuff ?

I was so sorry to see the presser on Hickman ranch today. My heart is broken for them. I pray there was no fowl play involved

They lost over 160,000 chickens. Fortunately no serious human injuries. As you know, the family is very dedicated to our community.

I understand you are having an exec session this morning I know you all are emphatic about not letting the hand count audit be done at your facilities but was hoping I could ask one more time if you would allow the auditors to perform their work on the machines at the facilities. Could you bring it up in the exec meeting and let me know if that would be possible ? Thanks.  
Senate President Karen Fann

I will bring it up and let you know. I know you & I are so anxious to be done with this.

The exec session is this afternoon.

Thanks very much. Yes I am very anxious to have this done and behind us. I hate all this divisiveness. We are too good fiends for this

Tue, Apr 13, 6:35 PM

I bought your question up in exec today. We got a very detailed response about efforts to comply with the subpoena. A letter is being prepared to bring you up to date on where things stand. It should be delivered before the end of the week. Hope that helps.
